

CASE STUDY – Leonard Court

Client:

Robert Edward Associates
Ltd

Principle Contractor:

Stonewest Limited

Architect:

Robert Edward Associates
Ltd

Value: £250K

Date: 2008

The Project included 10 retail units and over 100 apartments. The scope of our works included the careful planning and programming of Scaffolding, cleaning, restoration, waterproofing, decoration and new window installation. To complete the works successfully our Tenant Liaison had daily interaction and communication with the retailers and the residents of the upper floors. Ensuring that trust and understanding of all parties requirements was fully appreciated throughout the Project.

The Project was completed on time, within budget and without incident.

Equally satisfying is during an intensive customer satisfaction review “complete satisfaction” of the on site works was noted with no down turn to the businesses or nuisance reported by any resident or tenant.
