

# CASE STUDY – *Westminster Abbey*

**Client:**

The Dean and Chapter of Westminster Abbey

**Architect:**

Butress Fuller Partnership

**Principal Contractor:**

Stonewest Ltd

**Value:** £25k

**Date:** 1991

**Description**

The West Towers and window were carefully cleaned using a wet air abrasive system.

**The works involved:**

- Painsstaking care to protect the stained glass window was a prerequisite to cleaning itself and a variety of pressures and mediums were required to achieve the desired result without causing damage to the delicate stone carved features.
